

Wilderness Tours and Sun-Mar composting toilets join forces alongside the mighty Ottawa River.

Burlington Ontario. Sun-Mar, the Global Composting Experts, is the composting toilet provider of choice to Wilderness Tours for use at their resort on the shores of the Ottawa River, Canada. Wilderness Tours is a leading Canadian four season adventure vacation destination and since 1975 over a million guests have experienced thrills and excitement with them. After a rigorous search and review of the options Wilderness Tours selected Sun-Mar's premium Excel series composting toilets for use at the resort.

Wilderness Tours is dedicated to maintaining the Ottawa River in a pristine condition. With this in mind the resort was established in the most ecologically sound location on the river. The resort, in seeking to solve a very practical problem for its guests, was committed to doing so in a manner that supported the company's commitment to environmental sustainability. Selecting Sun-Mar's first in class composting toilets for the resort enabled Wilderness Tours not to compromise its guests' comfort and also provide facilities dedicated to protecting the environment.

"Wilderness Tours is recognised as Canada's top river company and a rafting pioneer" says Joe Kowalski, Wilderness Tours Founder. "Our selection of Sun-Mar's state of the art composting toilets allows us to combine the best of adventure and recreation activities with the finest resort facilities for post adventure relaxation."

"We're thrilled to help Wilderness Tours provide their guests with innovative eco friendly accommodation" says Chris Muir, Canadian Sales Manager, Sun-Mar. "We are proud of our association with this pioneering and environmentally dedicated organisation."

About Sun-Mar

Founded in 1983, Sun-Mar is a pioneer in composting and recycling technology. With its complete line of composting toilets and garden products, the Company has achieved a worldwide leadership position based on unique product designs and patented technologies. Sun-Mar designs, assembles and distributes each product to ensure and maintain high quality standards. In fact, only Sun-Mar has composting toilets that are certified by the National Sanitation Foundation (NSF) to NSF/ANSI Standard #41 for residential use.
